### GENERAL

The Conduit for Oseberg maintains a local copy of New Mexico, Oklahoma, and Texas completion, lease, and production data. We provide the data designed specifically for Esri's ArcMap, Tibco's Spotfire, and Microsoft's Excel complete with ready-to-run templates built using SQL Server native spatial geometries.

### CONDUIT SYSTEMS OF ACCESS DESIGNED FOR OSEBERG

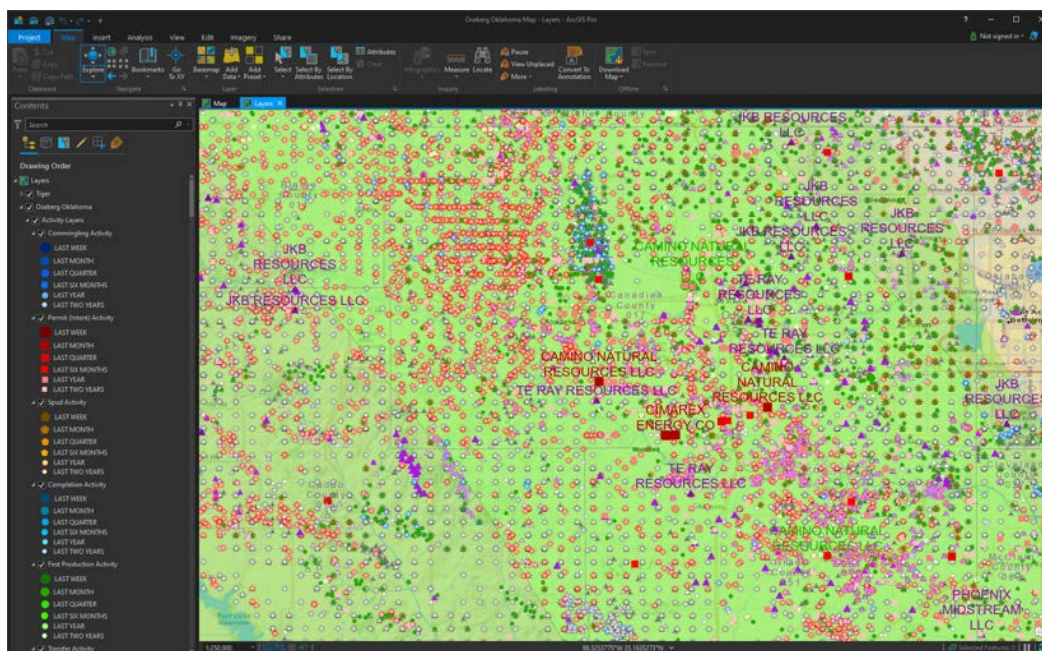

All referenced templates are in the 'Oseberg' folder located inside the master Conduit file folder. Please check with your administrator for the specific Conduit folder location.

The Conduit for Oseberg data comes complete with a ready-to-run Esri ArcMap template for all your entitled data. These datasets are maintained in SQL Server Spatial tables and are performance-tuned and tested for ArcMap, ArcGIS Pro, ArcGIS Server, and Portal.
